Welcome address

Dear Industry Partners,

On behalf of the Serbian Neurosurgical Society, it is our great pleasure to invite you to join us at the **13th SNSS Annual Meeting with International Participation: Spine Neurosurgery 2027 – From Innovation to Impact**, taking place **September 8–12, 2027, in Vrnjačka Banja, Serbia.**

Innovation has always been closely connected with the development of spine neurosurgery. Advances in surgical technologies, implants, imaging, navigation and robotics, minimally invasive and endoscopic techniques, digital solutions, and artificial intelligence are continuously changing the way we diagnose, plan, and treat spinal disorders. Turning these innovations into meaningful improvements in clinical practice, however, requires close dialogue and collaboration between clinicians, researchers, and industry.

This is at the heart of our 2027 theme, **From Innovation to Impact.**

The meeting will bring together leading international and regional experts, neurosurgeons, researchers, and young professionals to exchange knowledge, discuss emerging technologies and clinical challenges, and explore how innovation can translate into safer procedures, better outcomes, and improved patient care.

Our industry partners are an important part of this exchange. The meeting will provide opportunities to present new technologies and solutions, interact directly with the neurosurgical community, and contribute to discussions on the future of spine surgery. We aim to create an environment in which scientific exchange and technological innovation complement each other while maintaining a clear focus on clinical relevance and patient benefit.

We invite you to become a partner of Spine Neurosurgery 2027 – From Innovation to Impact and to join us in creating a meeting where new ideas, clinical experience, and technological advances come together to make a real impact.

We look forward to welcoming you to **Vrnjačka Banja, September 8–12, 2027.**

Cordially,

Lukas Rasulic
